Work Experience

Web Developer Intern @ Pixel8 Web Solutions & Consultancy Inc.
Feb - May 2022

- Gained valuable experience through a remote internship where I collaborated with other developers, learned to be independent, and recognized the importance of time management to successfully complete tasks
- Responsible for developing front-end features, creating responsive designs, writing clean code, and converting Adobe XD UI designs using Vue.js and the Quasar Framework.

Front-End Developer Intern @ Snack Software, LLC
July - August 2021

- A remote internship experience of working in a real work environment. Collaborated with a senior developer who provided guidance and mentoring on every task, including code reviews and best coding practices.
- Responsible for coding the front-end designs, converting the given UI mockups, and maintaining a fast and easily maintainable code base for the project

Projects

Pintern

- Aim to help companies manage the day-to-day tasks of their trainees. Users can create and join teams using an invitation code.

HRC - Ecommerce Store

- A clothing line business e-commerce store build using MERN Stack

Lings - Bookmark

- Bookmark web app built with MERN Stack, Redux Toolkit and TypeScript

Covid Tracker

- The website includes features such as continent-based filtering, a list of top countries with active COVID cases, and detailed COVID statistics for individual countries.

OJT Record Management System

- A remote job and a freelance project built with PHP, MySQL, and TailwindCSS. Experienced working with a co-developer and learned to build relationships and network myself.

Attendance Monitoring System

- A freelance project built with PHP, MySQL, and TailwindCSS. Managed to build and designed the project all from the scratch.

Events Management System

- A freelance project built with PHP, MySQL, and TailwindCSS. Worked with a co-developer and finish the project within a limited time.
