## Work Experience

### Web Developer Intern @ Pixel8 Web Solutions & Consultancy Inc.
Feb - May 2022

- A remote internship experience that involved me collaborating with other developers and adapting senior developer's design patterns and code reviews
- Developing the front-end features, responsive designs, writing clean code, and convert Adobe XD UI designs with Vue.Js and Quasar Framework.
- Learned how developers worked remotely.

### Front-End Developer Intern @ Snack Software, LLC
July - August 2021

- A remote internship experience of working in a real work environment. Worked with a senior developer who helped and mentor me on every task, like code reviews and best coding practices.
- Responsible for coding the front-end designs, converting the given UI mockups, and maintain a fast and easily maintainable code base of the project.
- Build the frontend features all from scratch and learn the needed technology for the development

## Projects

### Pintern
- This is a full stack website that aim to help companies to manage the everyday tasks of their trainees. Users can create and join teams through an invitation code.

### Covid Tracker
- Covid tracker website built with React and Tailwind CSS. Added features include filtering by continents, top countries with active covid cases, and detailed covid stats by countries.

### Lingks - Bookmark
- Bookmark web app built with MERN Stack, Redux Toolkit and TypeScript

### OJT Record Management System
- A remote job and a freelance project built with PHP, MySQL, and TailwindCSS. Experienced working with a co-developer and learned to build relationships and network myself.

### Attendance Monitoring System
- A freelance project built with PHP, MySQL, and TailwindCSS. Managed to build and designed the project all from the scratch.

### Events Management System
- A freelance project built with PHP, MySQL, and TailwindCSS. Worked with a co-developer and finish the project within a limited time.

## Skills

### Programming Languages
Javascript, TypeScript, HTML, CSS/Sass, PHP, MySQL, MongoDB

### Libraries & Frameworks
React, Redux Toolkit, Node.Js, Express.Js, Vue.Js, Styled Components, Quasar Framework, Tailwind CSS, Mantine UI, Material UI
**Tech Stack**: MongoDB, Express.Js, React, Node.Js
**Exposure**: React Native, Expo, NativeBase

### Tools & Platform
Postman, Git, Vercel

### Soft Skills
Problem Solving, Time management, Adaptability, Self Learning, Teamwork

### Others
Linux OS, Arch based distro

## Education

### Bicol University Polangui Campus
2018 - 2022
Bachelor of Science in Information Systems

## Certification

### Best Thesis Award
2022
**Project**: Student Profiling System

## Interests

Coding, watching movies, playing music, basketball
